micro-drama boom

to organically connect with consumers.

**To raise awareness about fatigue associated
with calcium-deficiency, we launch...**

Kitty NEXT DOOR

An AI-powered micro-drama exploring the life of Indian women,
their everyday battles with calcium deficiency and the resulting fatigue.

On the day of the monthly kitty, Bharti promises she'll finally enjoy herself, but fatigue quietly follows her from home to the housie table. While her friends laugh and celebrate a "full house," Bharti misses her own winning moment, too drained to even notice as a sharp pain takes over. Watching her brush it off as "just age," you can't help but think...

“Ab toh iss ka kuch karo!”

Each episode is a different journey, showing each of the kitty members going from sidelining their body's cry for calcium deficiency to finally taking charge for it.

Bhajan Clubbing Emerges As Viral Alternative To
Conventional Nightlife

Why bhajan clubbing is the new urban trend

'Bhajan-clubbing' no less than global concerts, says
PM

Bhajans

are making a comeback in mainstream
pop culture with Bhajan Clubbing.

**To make people care about bone health,
we launch... you guessed it!**

A group of Indian women, primarily in blue saris, are shown in a joyful setting. They are singing and playing musical instruments, including a harmonium and a mridanga drum. The central figure is a woman with a bindi, smiling broadly with her eyes closed. The background shows other women clapping and singing. The overall atmosphere is one of community and cultural celebration.

BONE HEALTH BHAJAN

An AI-enabled series of folk songs and bhajans that educate Indian women about bone health in the language they admire and relate with.

Mai Thak Gayi Maata,
Mai Thak Gayi Maata,
Ab aur saha nahi jaata...
Har kadam ladkhadataaa...
Mai Thak Gayi Maata,

Iss thakaan ko mitaao,
Tan man urja badhaao,
Ab aur saha nahi jaata,
Mai Thak Gayi Maata,

Bone density ho gayi kam,
Dard se aankhein hain nam,
Aur saha nahi jaata, kuch toh karo bhrata...
Kyunki mai thak gayi maata...

Cipcal se hoga behtar
Isme hai D3 aur calcium,
Aise thaka nahi jaata...
Beta aise thaka nahi jaata...

Thakaan ke aage na jhukna
Cipcal lo betaa...
Cipcal lo, khud ko calcium ka vardaana do!

Engage

Women with scroll-stopping platform innovation to give them a reality check

Low calcium leads to

brain fog and decreased physical stamina

To highlight the problem

for Indian women we present...

Buffering

Aunty

An AI-led content series that glimpses into the life of an Indian woman and her daily battles with calcium deficiency

Every episode shows a fatigued lady zoning out and buffering amid *key high-stakes tasks*, spotlighting *the symptoms and the need for daily calcium intake*.

Buffering videos make people stop mid-scroll on Instagram and YouTube, almost making them think they've lost internet while they may have lost bone density.

Episode 01 plot

A young boy runs up to mom, telling her he got drenched in the rain. Lost in a moment of brain fog, in a split second of distracted reflex, the buffering mom almost hangs him up on the clothesline with the laundry instead of reaching for a towel.

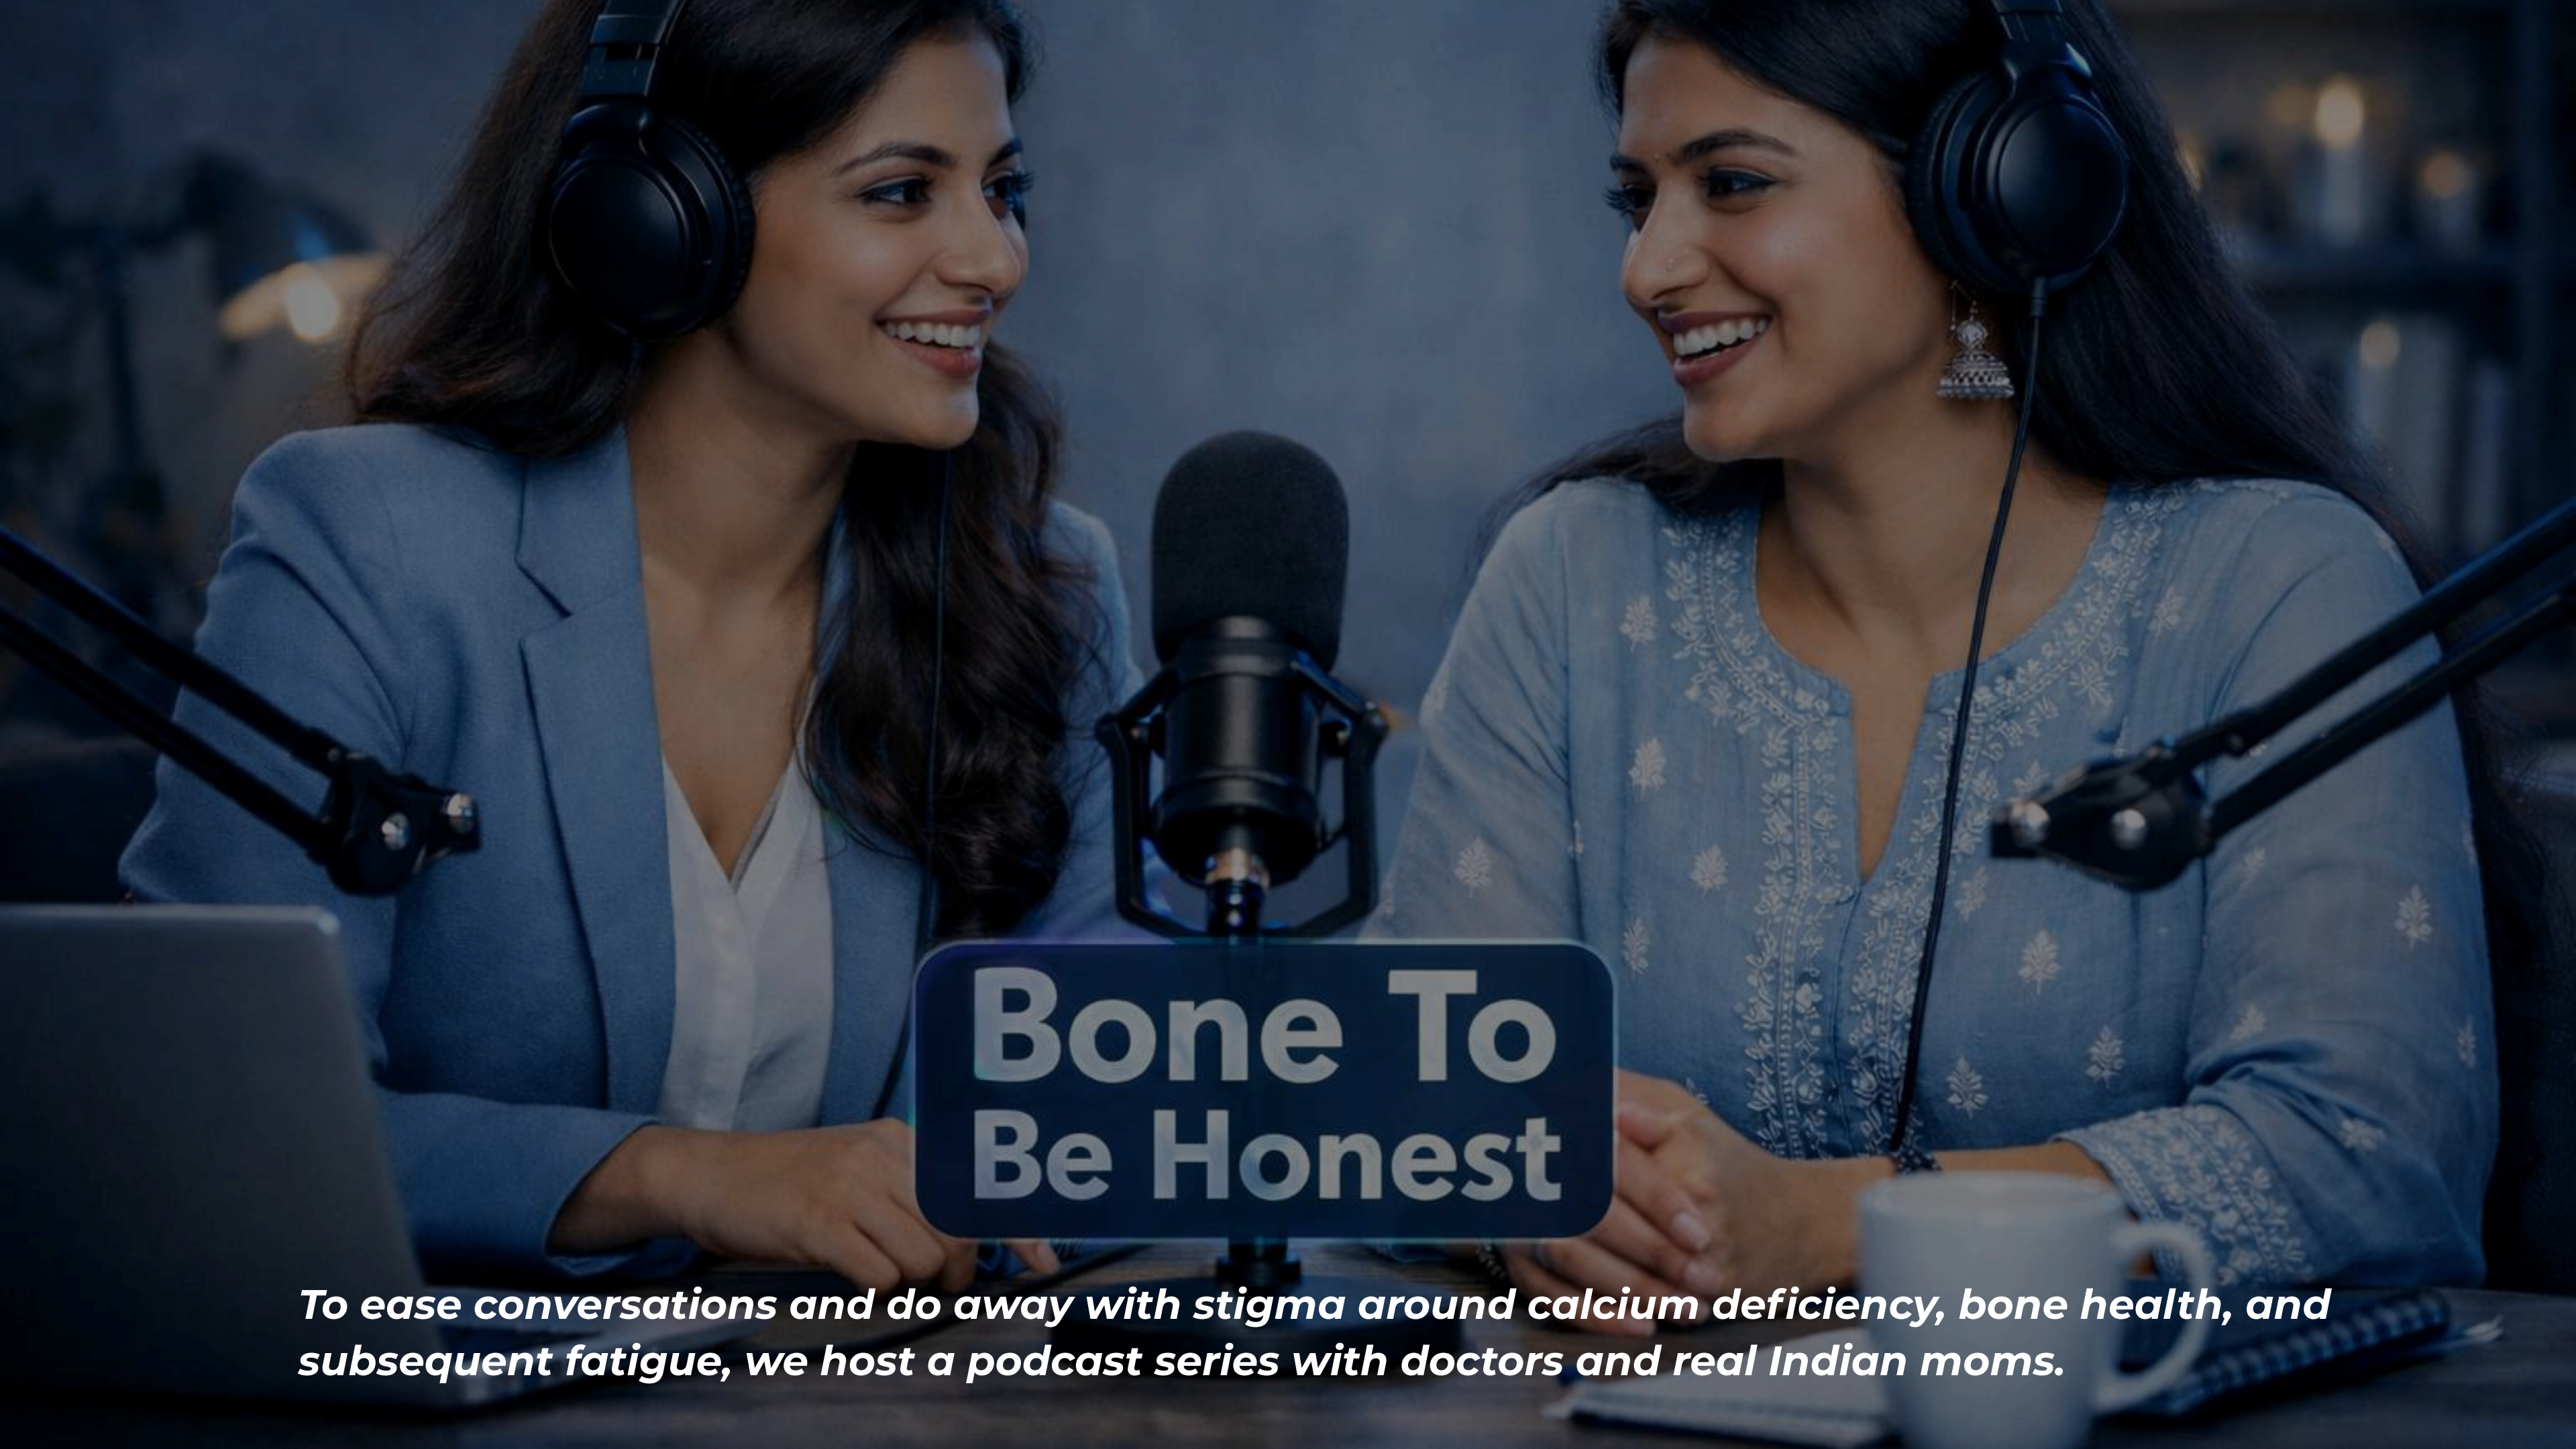

The background features a smooth blue gradient. A wavy, translucent line separates the top half, which has a soft rainbow-colored glow, from the bottom half, which is a solid blue.

Educate

Deep dive into what happens inside a woman's body after 30 to raise awareness about calcium deficiency

***Brands are
increasingly turning to
podcasts for a conversational knowledge transfer.***

A photograph of two women sitting at a desk in a podcast studio. Both women are wearing large black over-ear headphones and are smiling at each other. The woman on the left is wearing a light blue blazer over a white shirt. The woman on the right is wearing a blue patterned kurta. In front of them are two professional microphones on boom arms. A dark blue rounded rectangular box with white text is centered in the lower half of the image. The background is a blurred studio setting with warm lighting.

Bone To Be Honest

To ease conversations and do away with stigma around calcium deficiency, bone health, and subsequent fatigue, we host a podcast series with doctors and real Indian moms.

Episode rollout

Ep 01: Why Are Indian Women Always Tired?

Ep 02: Brain Fog, Body Pain & Burnout - Is It a deficiency?

Ep 03: Menopause & The Bone Break You Don't See

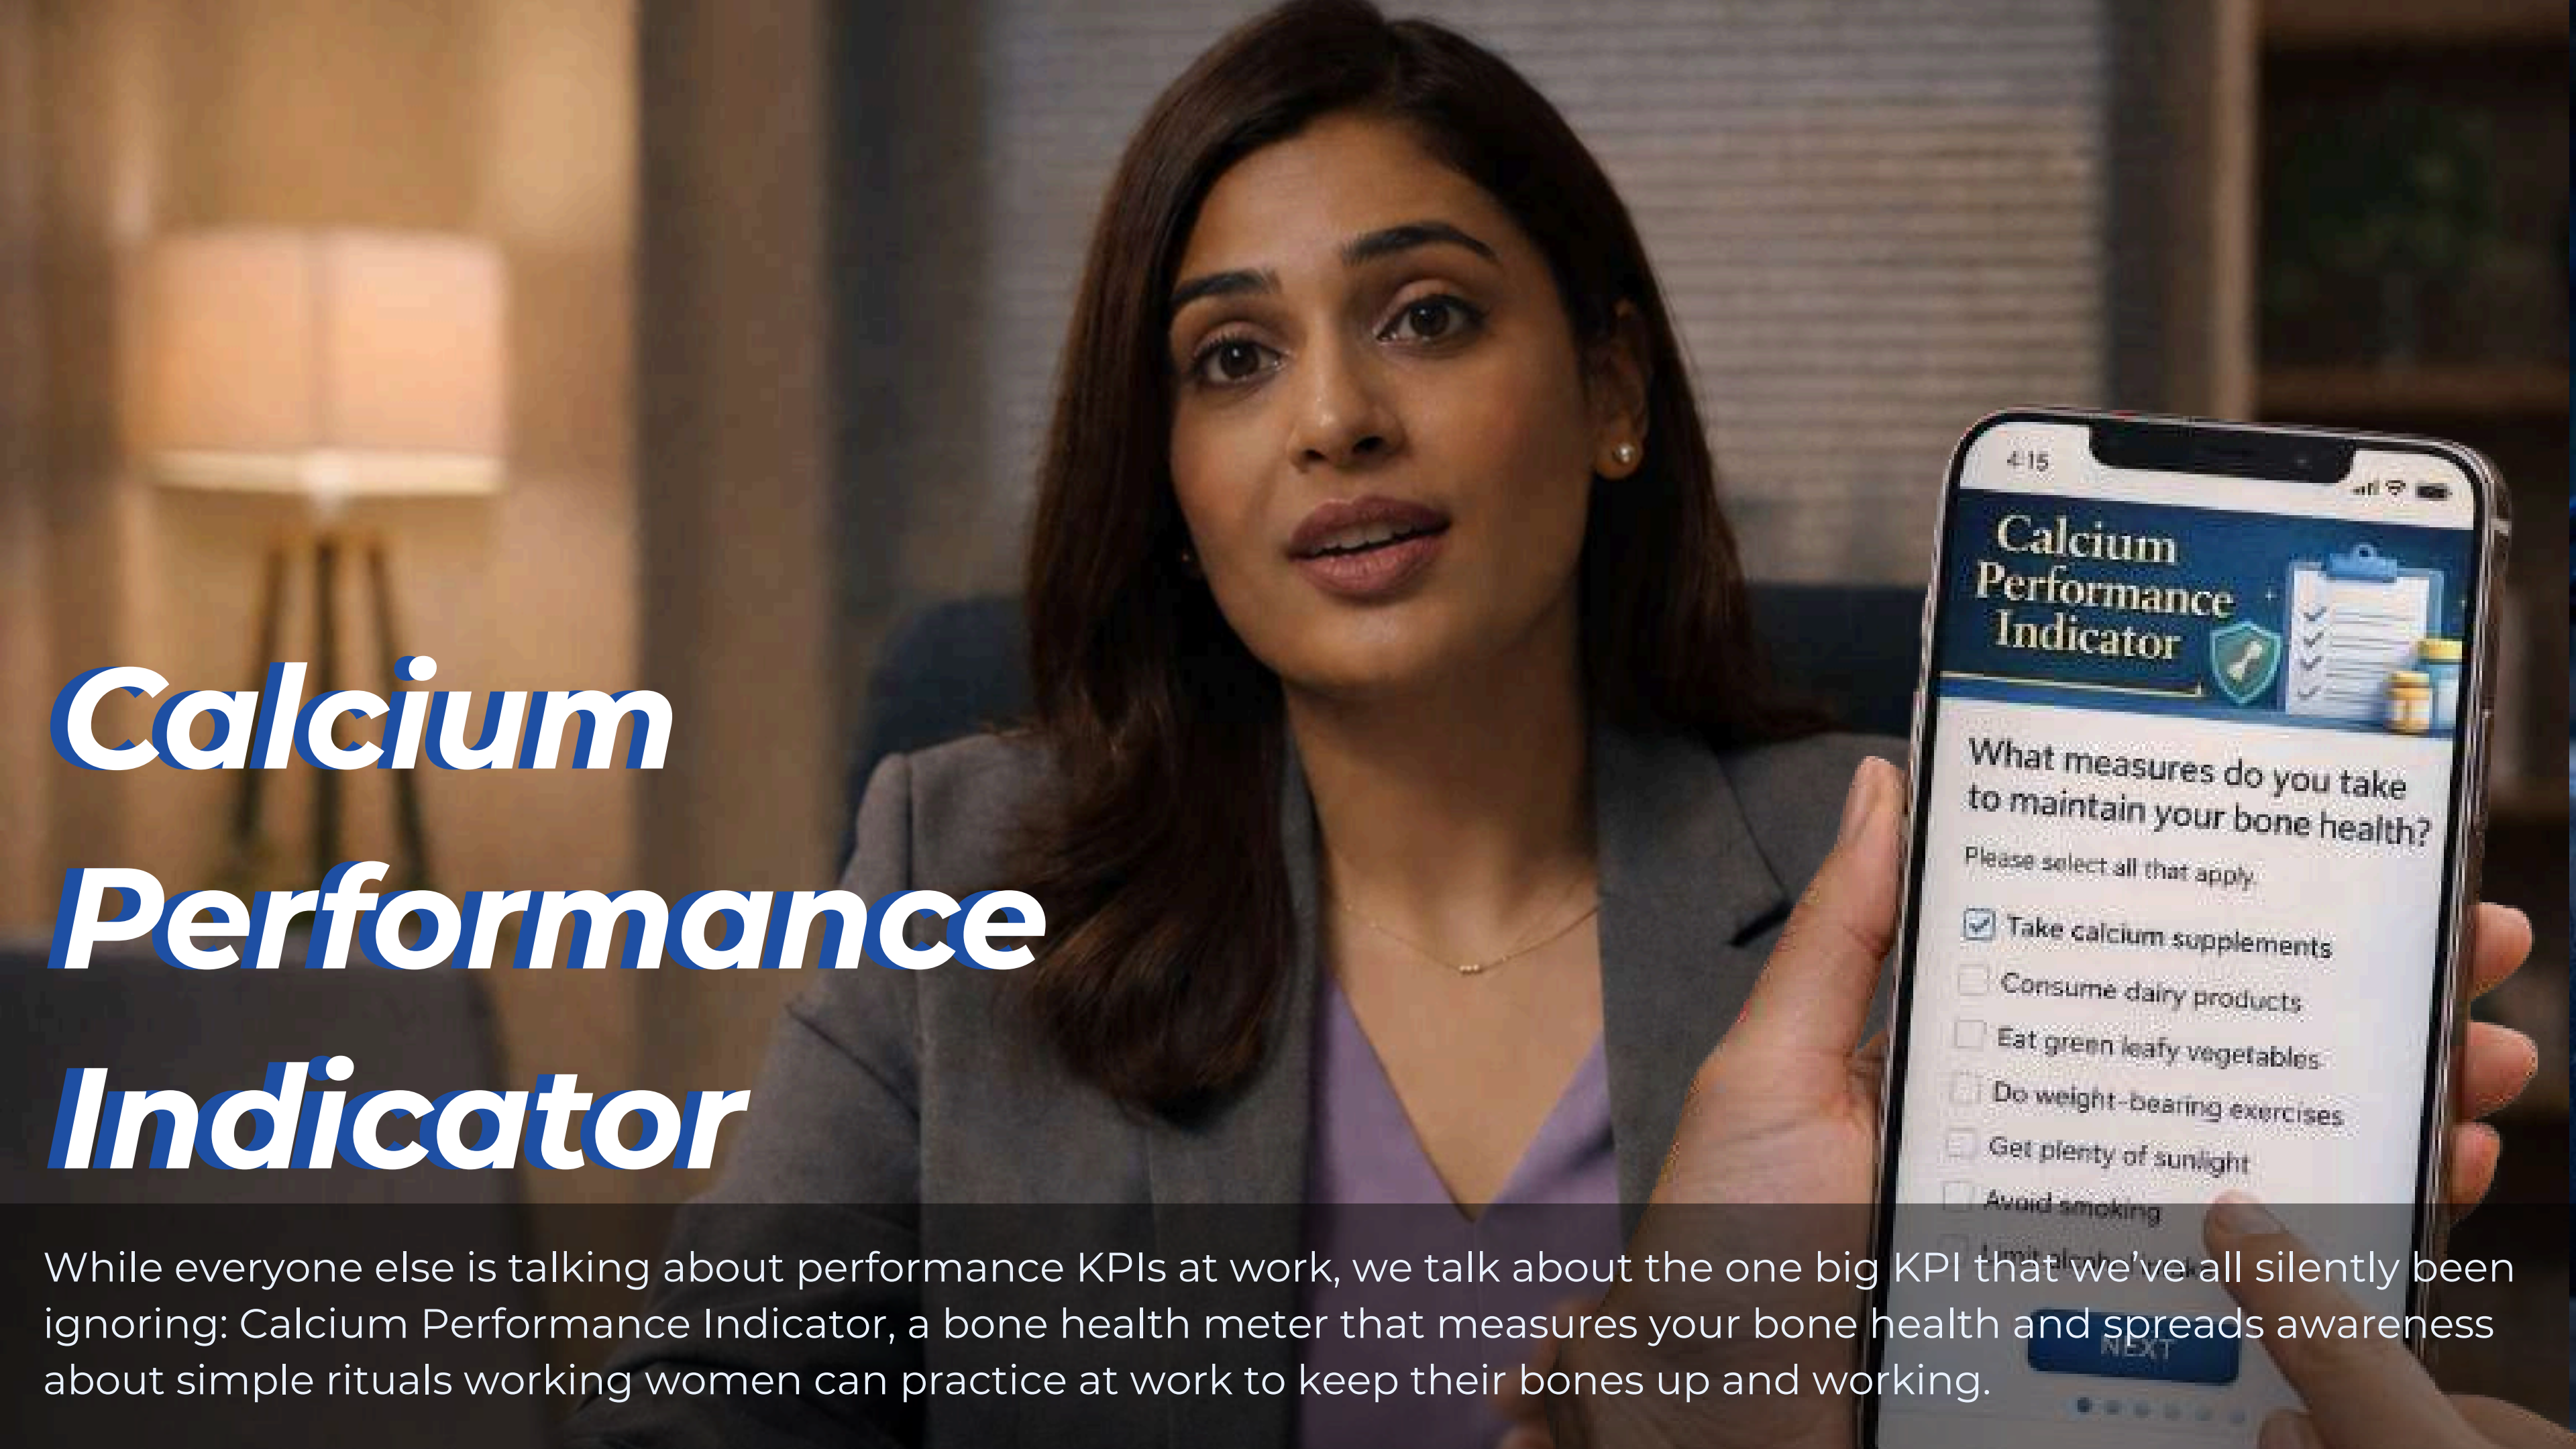

Moment Marketing

Giving working women quick tips to maintain bone health

The hiring season is here

**Internet is already buzzing with
conversations around appraisals and KPIs.**

Calcium Performance Indicator

While everyone else is talking about performance KPIs at work, we talk about the one big KPI that we've all silently been ignoring: Calcium Performance Indicator, a bone health meter that measures your bone health and spreads awareness about simple rituals working women can practice at work to keep their bones up and working.

The execution reference

Every episode begins with the working woman speaking to the camera like it's their BFF, we capture them taking the test, reacting to questions, doing quick exercises as they read up about bone health related answers in the quiz.

Episode rollout

Ep 01: 5-minute desk stretch

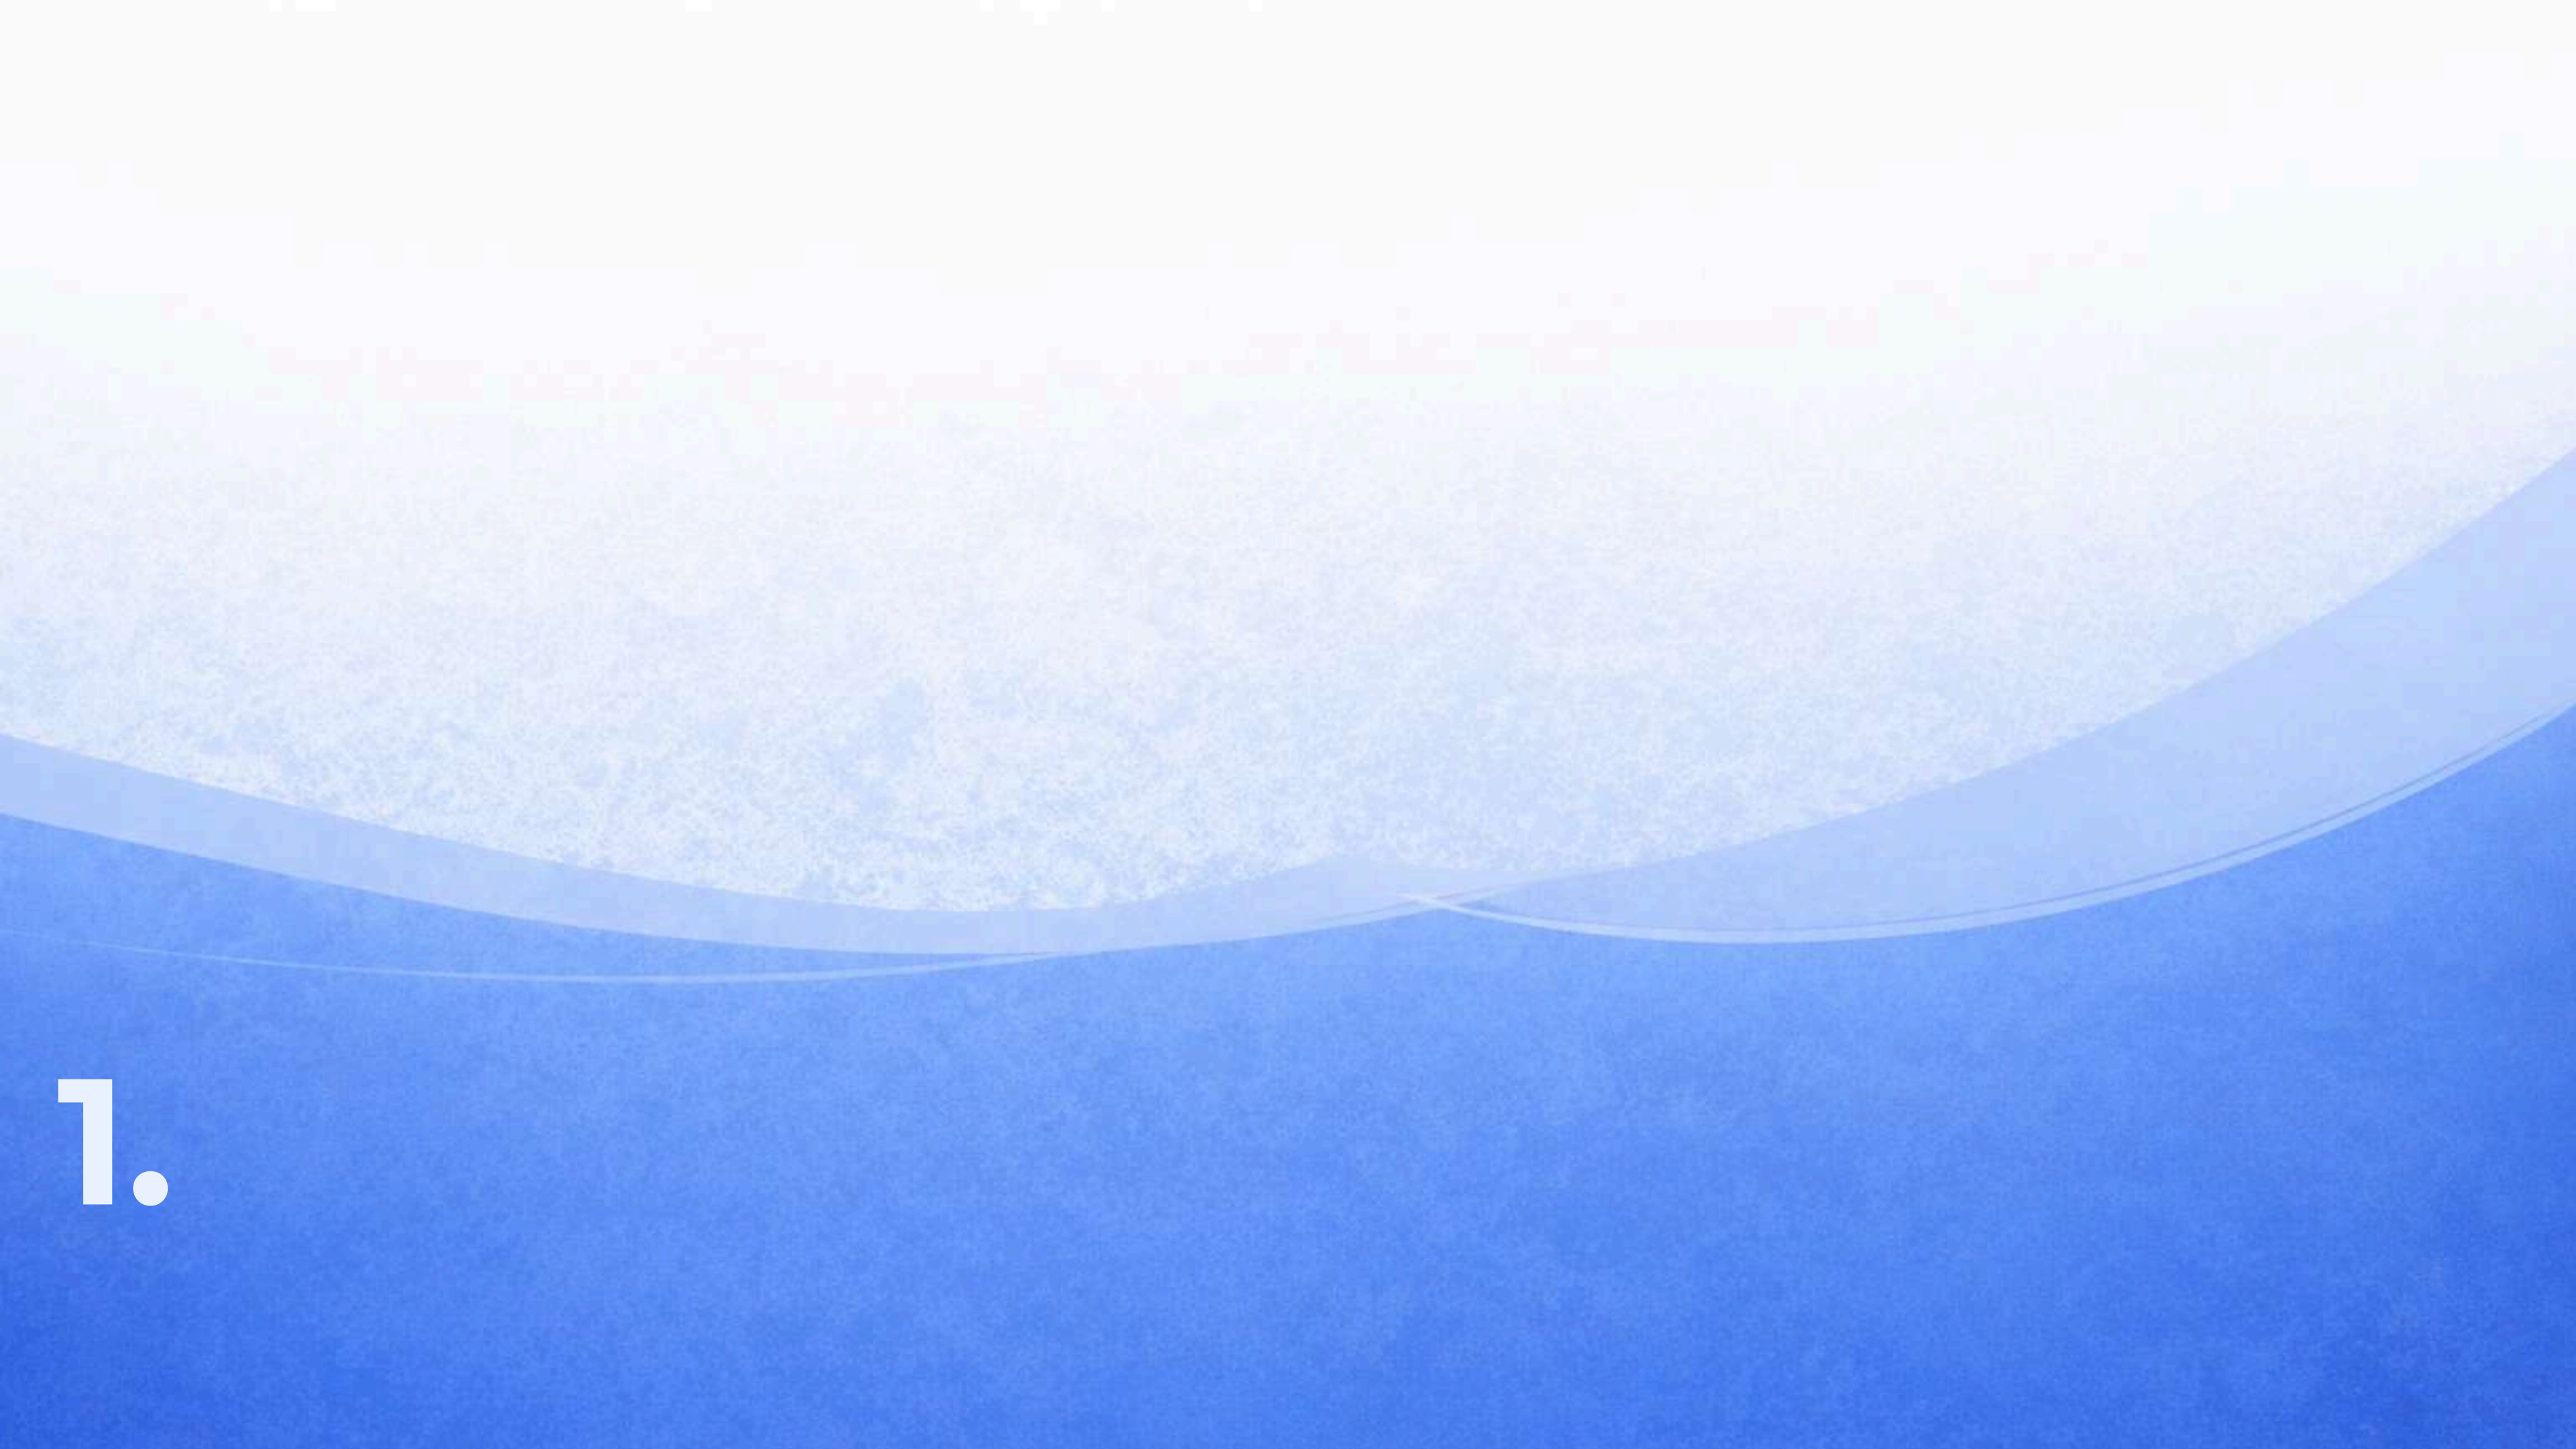

Ep 02: Standing meeting > Sitting meeting

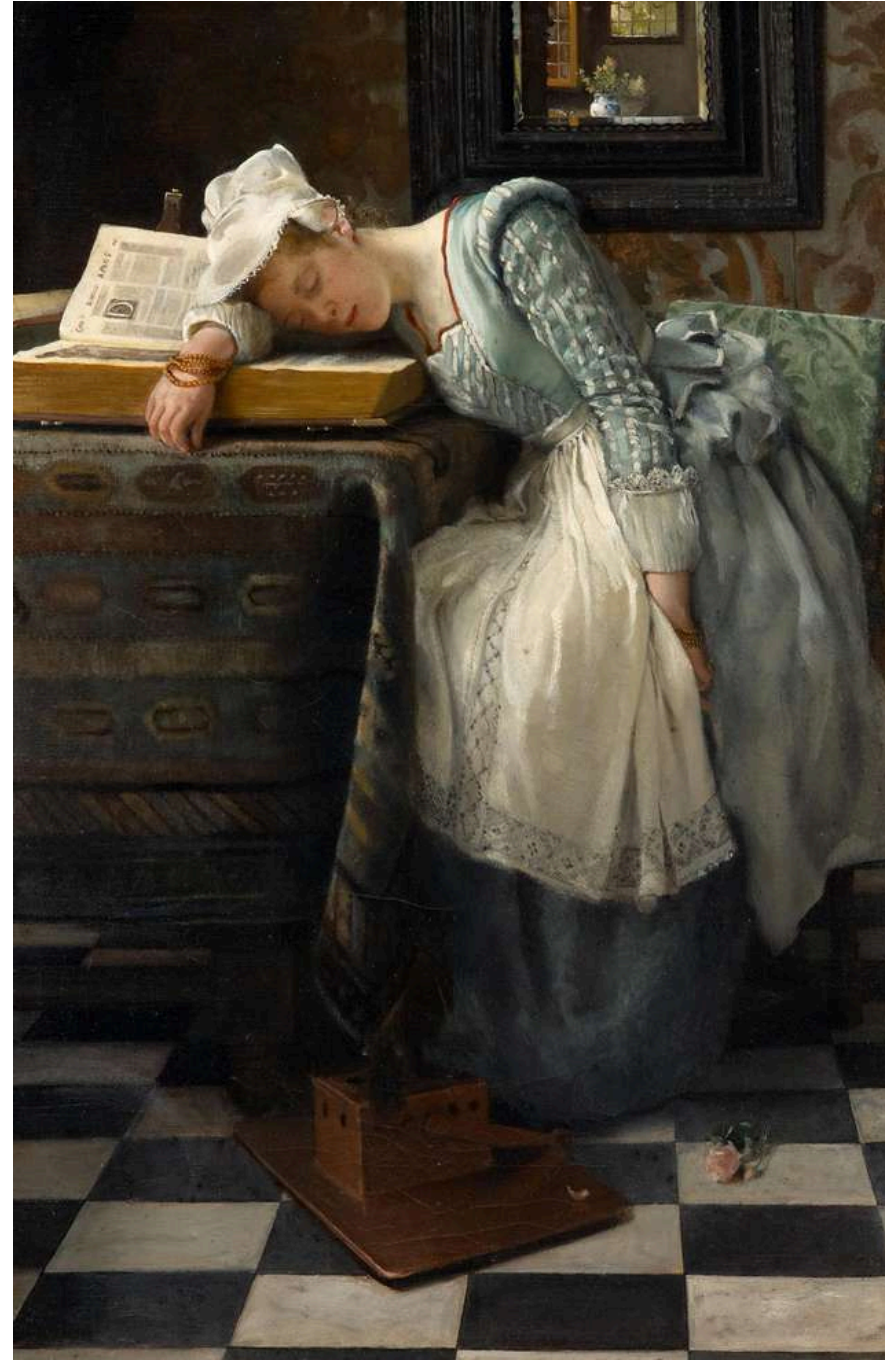

Ep 03: Posture Optimization Strategy

Let's talk social

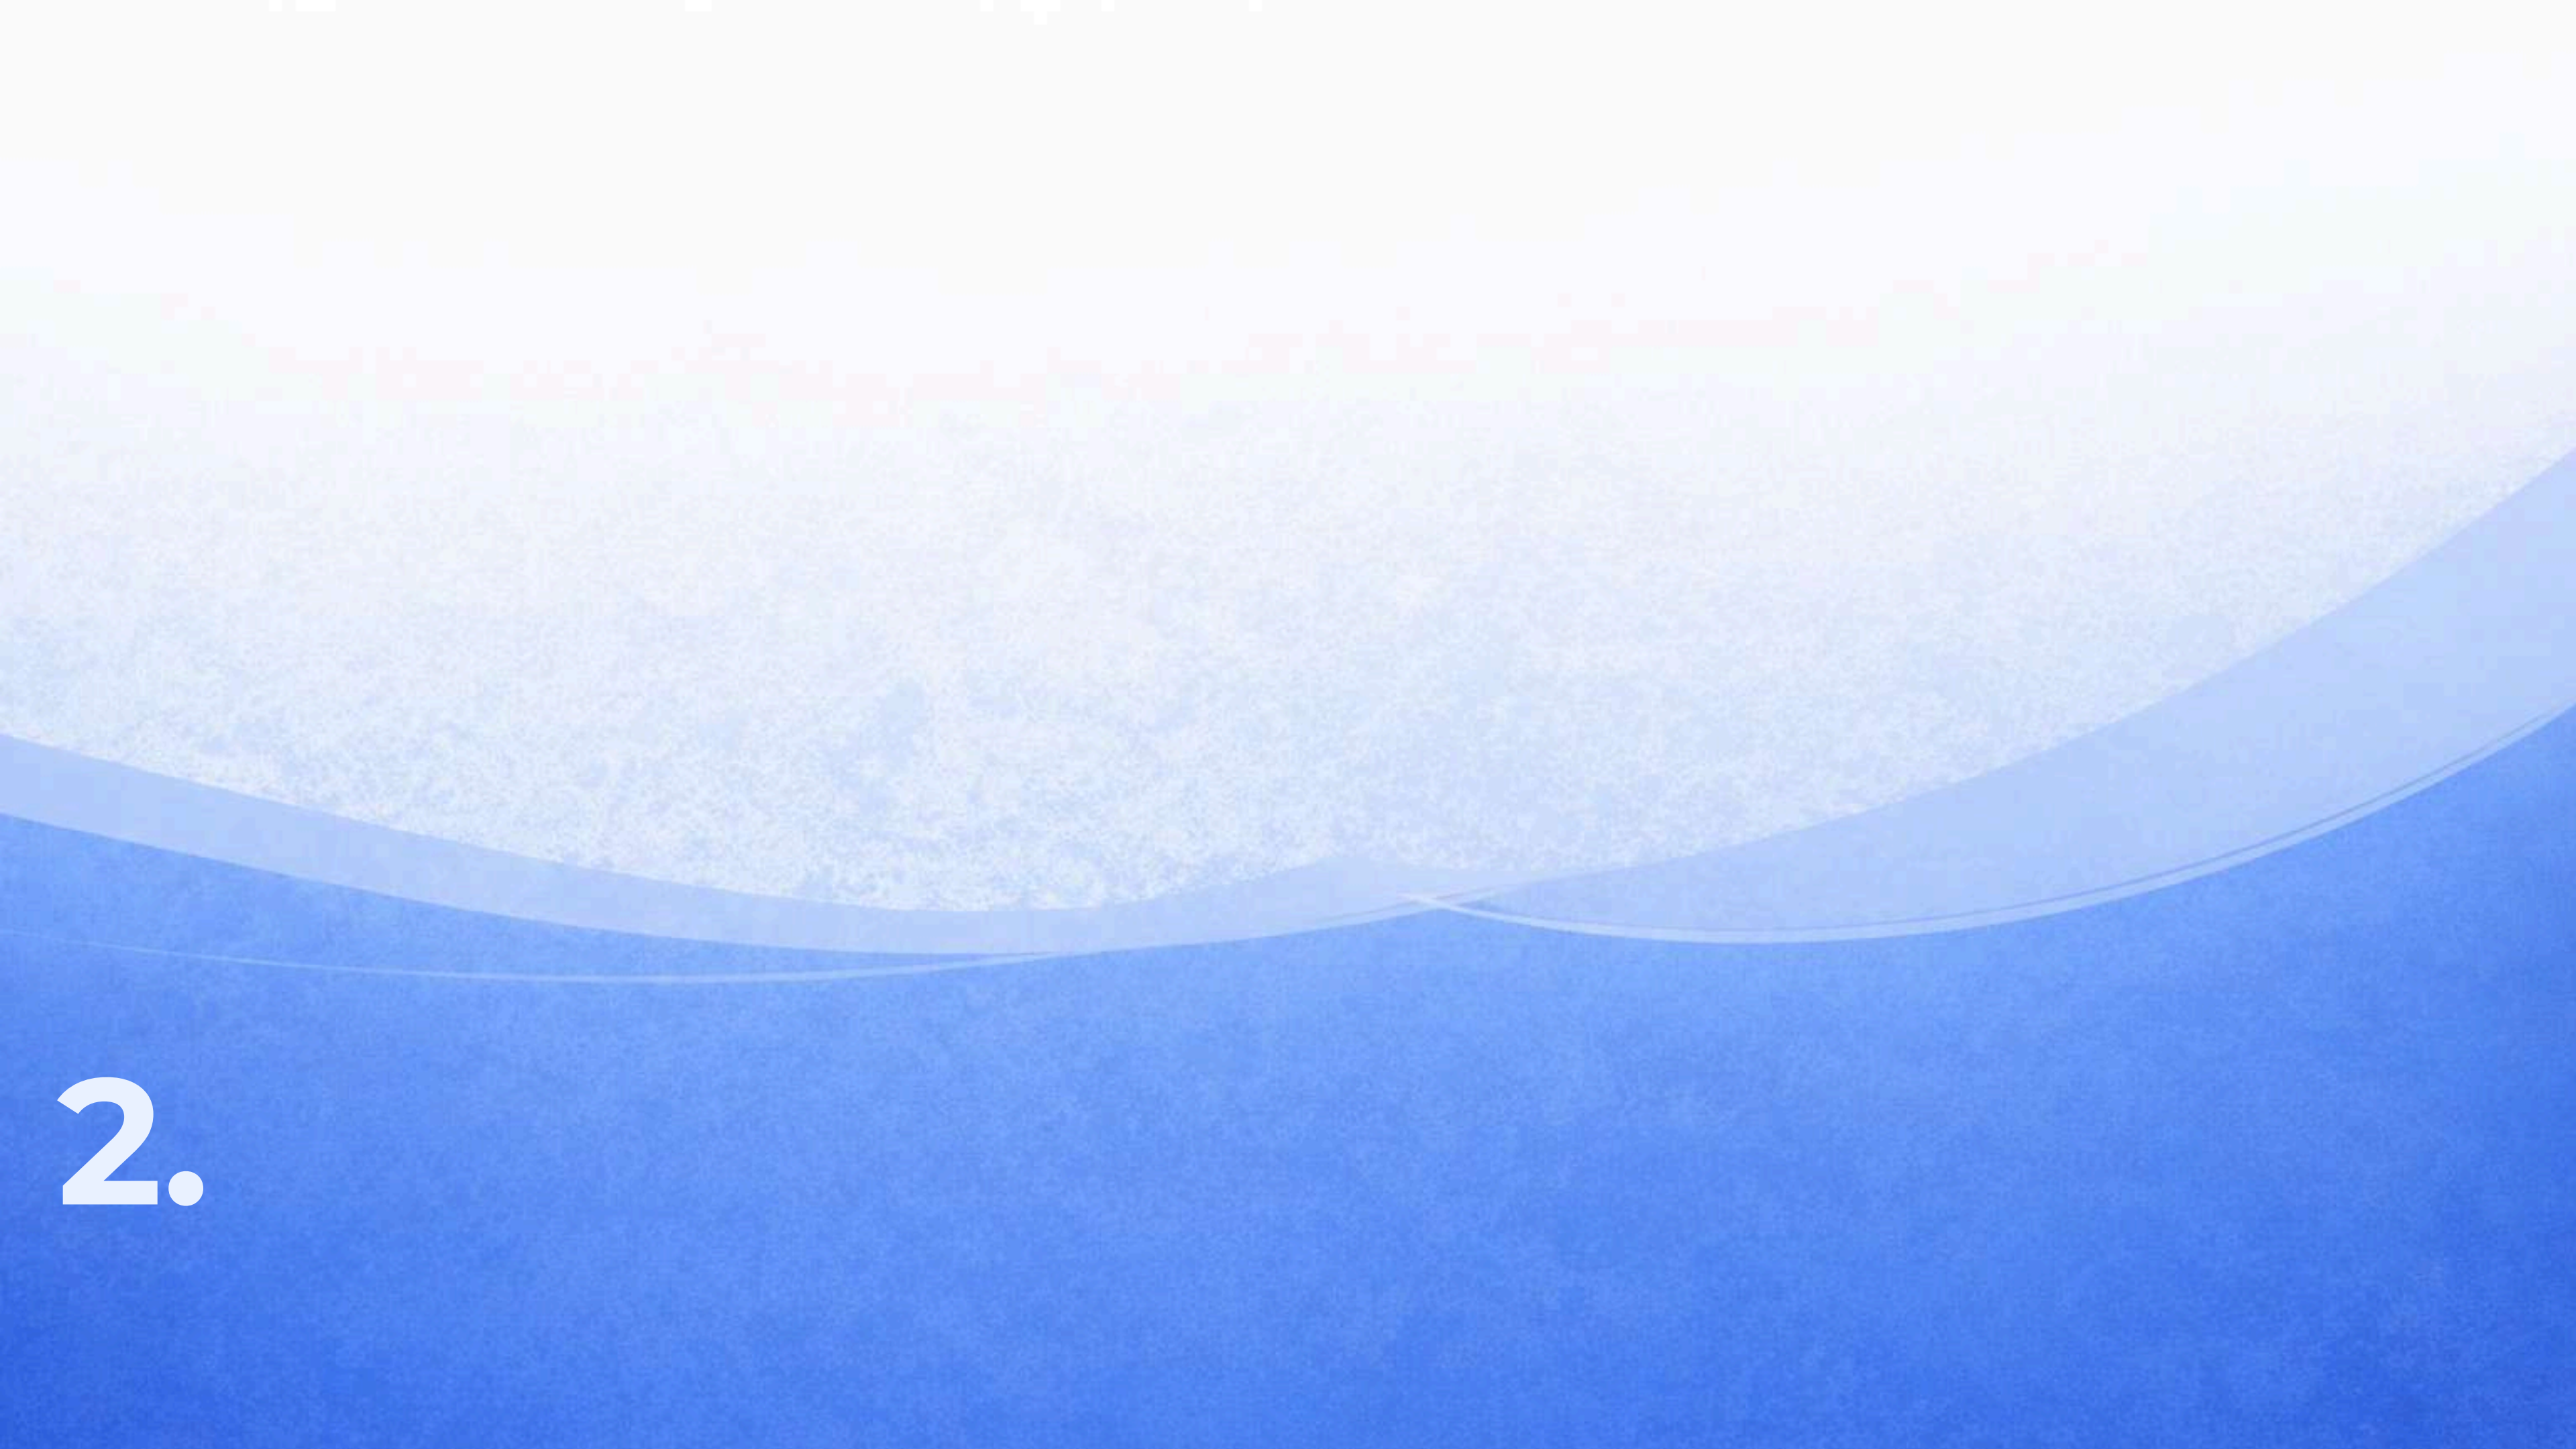

1.

Across medieval and renaissance paintings, women were often shown quiet, still, and tired, reflecting how fatigue was accepted for centuries.

Through AI, the paintings come alive. Cipcal helps the women achieve better form, ignite inner energy, and bring strength vividly back to life.

2.

Leaning for support and needing frequent sitting breaks can be an early sign of calcium deficiency.

We turn everyday support touchpoints into gentle reminders, showing that Cipcal is always there to support you from within.

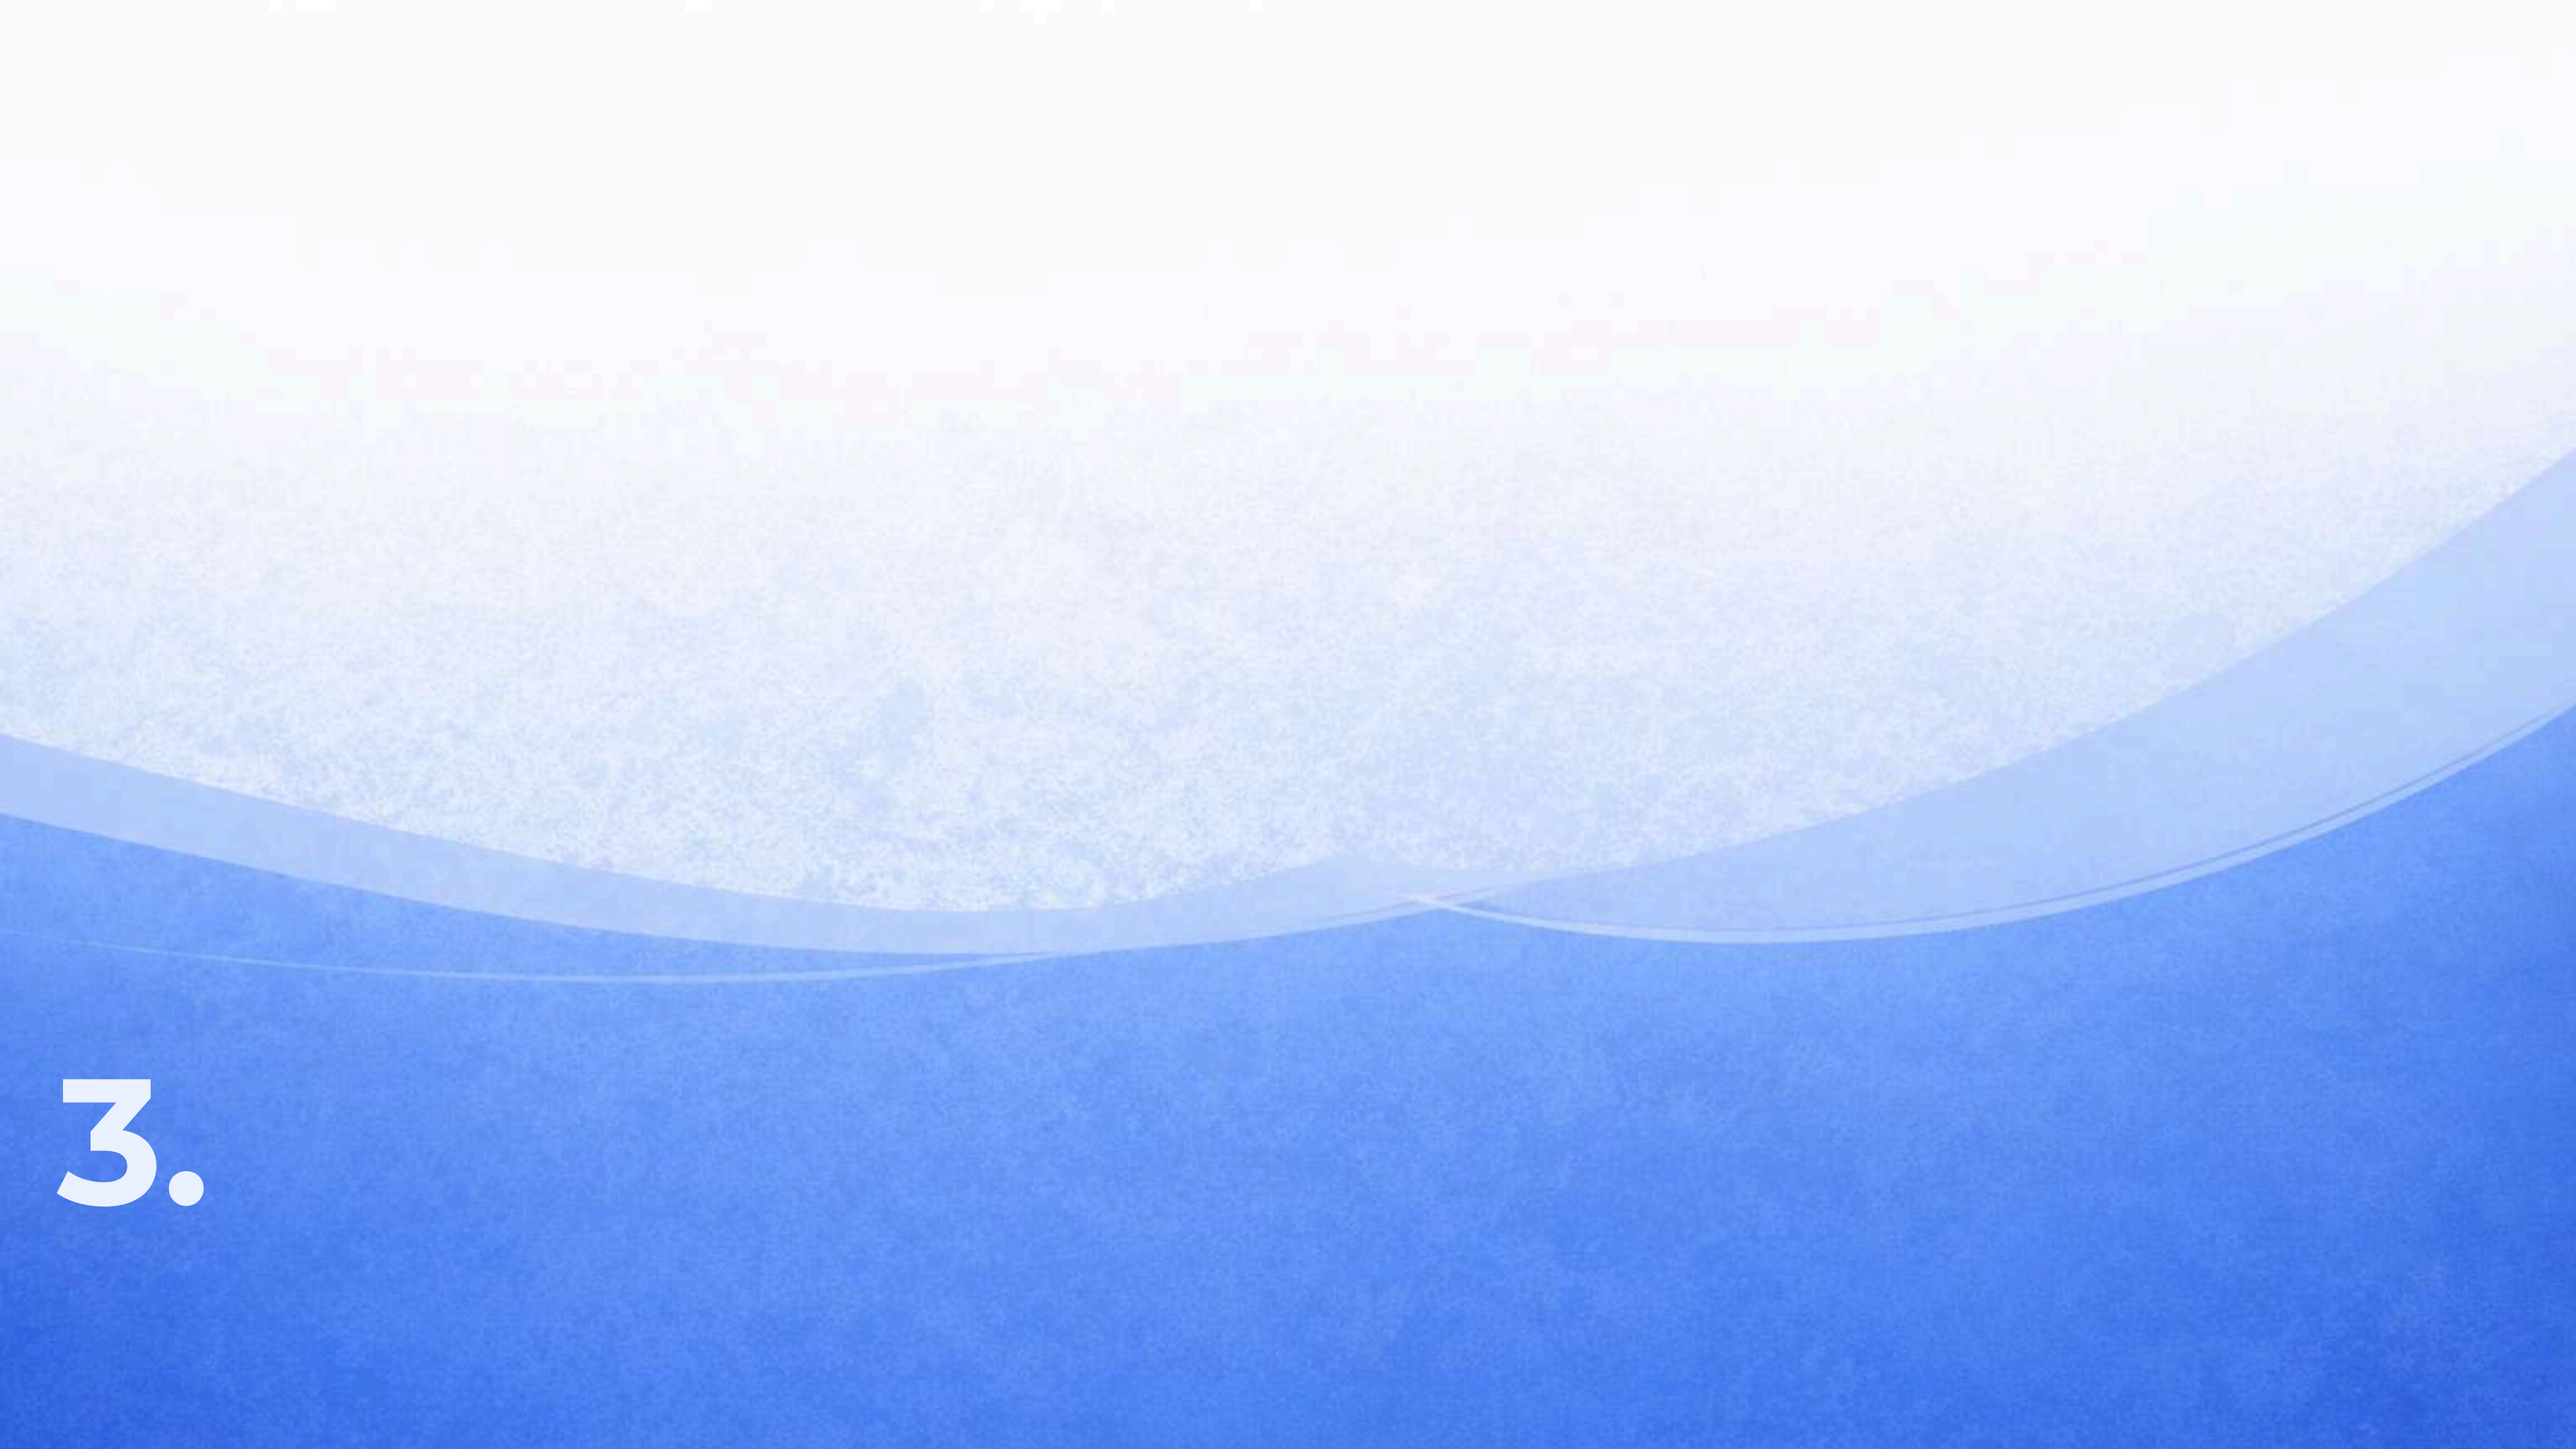

If you keep reaching over for support

Maybe it's time to upgrade your *calcium* game.
Cipcal

If you keep reaching over for support

Maybe it's time to upgrade your calcium game.

Make the most
number of hearts 💕

4

Concept note:

A man struggles to hold a large bunch of spinach leaves, trying to balance their weight as the frame tilts and slips out of control.

The screen transitions to a woman calmly holding a single Cipcal tablet.

The contrast highlights how one small tablet can deliver the calcium strength that would otherwise feel like “too much” to manage.

Because strength shouldn't weigh you down

CIPCAL®

I am this close to...

Giving up my energy.

CIPCAL®

Not yet...

Just one tablet.

CIPCAL®

Give your bones the calcium they've been missing.

Concept note-

A simple hand gesture creates a tablet-sized gap, symbolising the missing calcium your bones need every day.

F1- I am this close to

Fingers- giving up my energy.

Visual- Gap between thumb and finger.

F2-

Not yet...

Just one tablet. Cipcal.

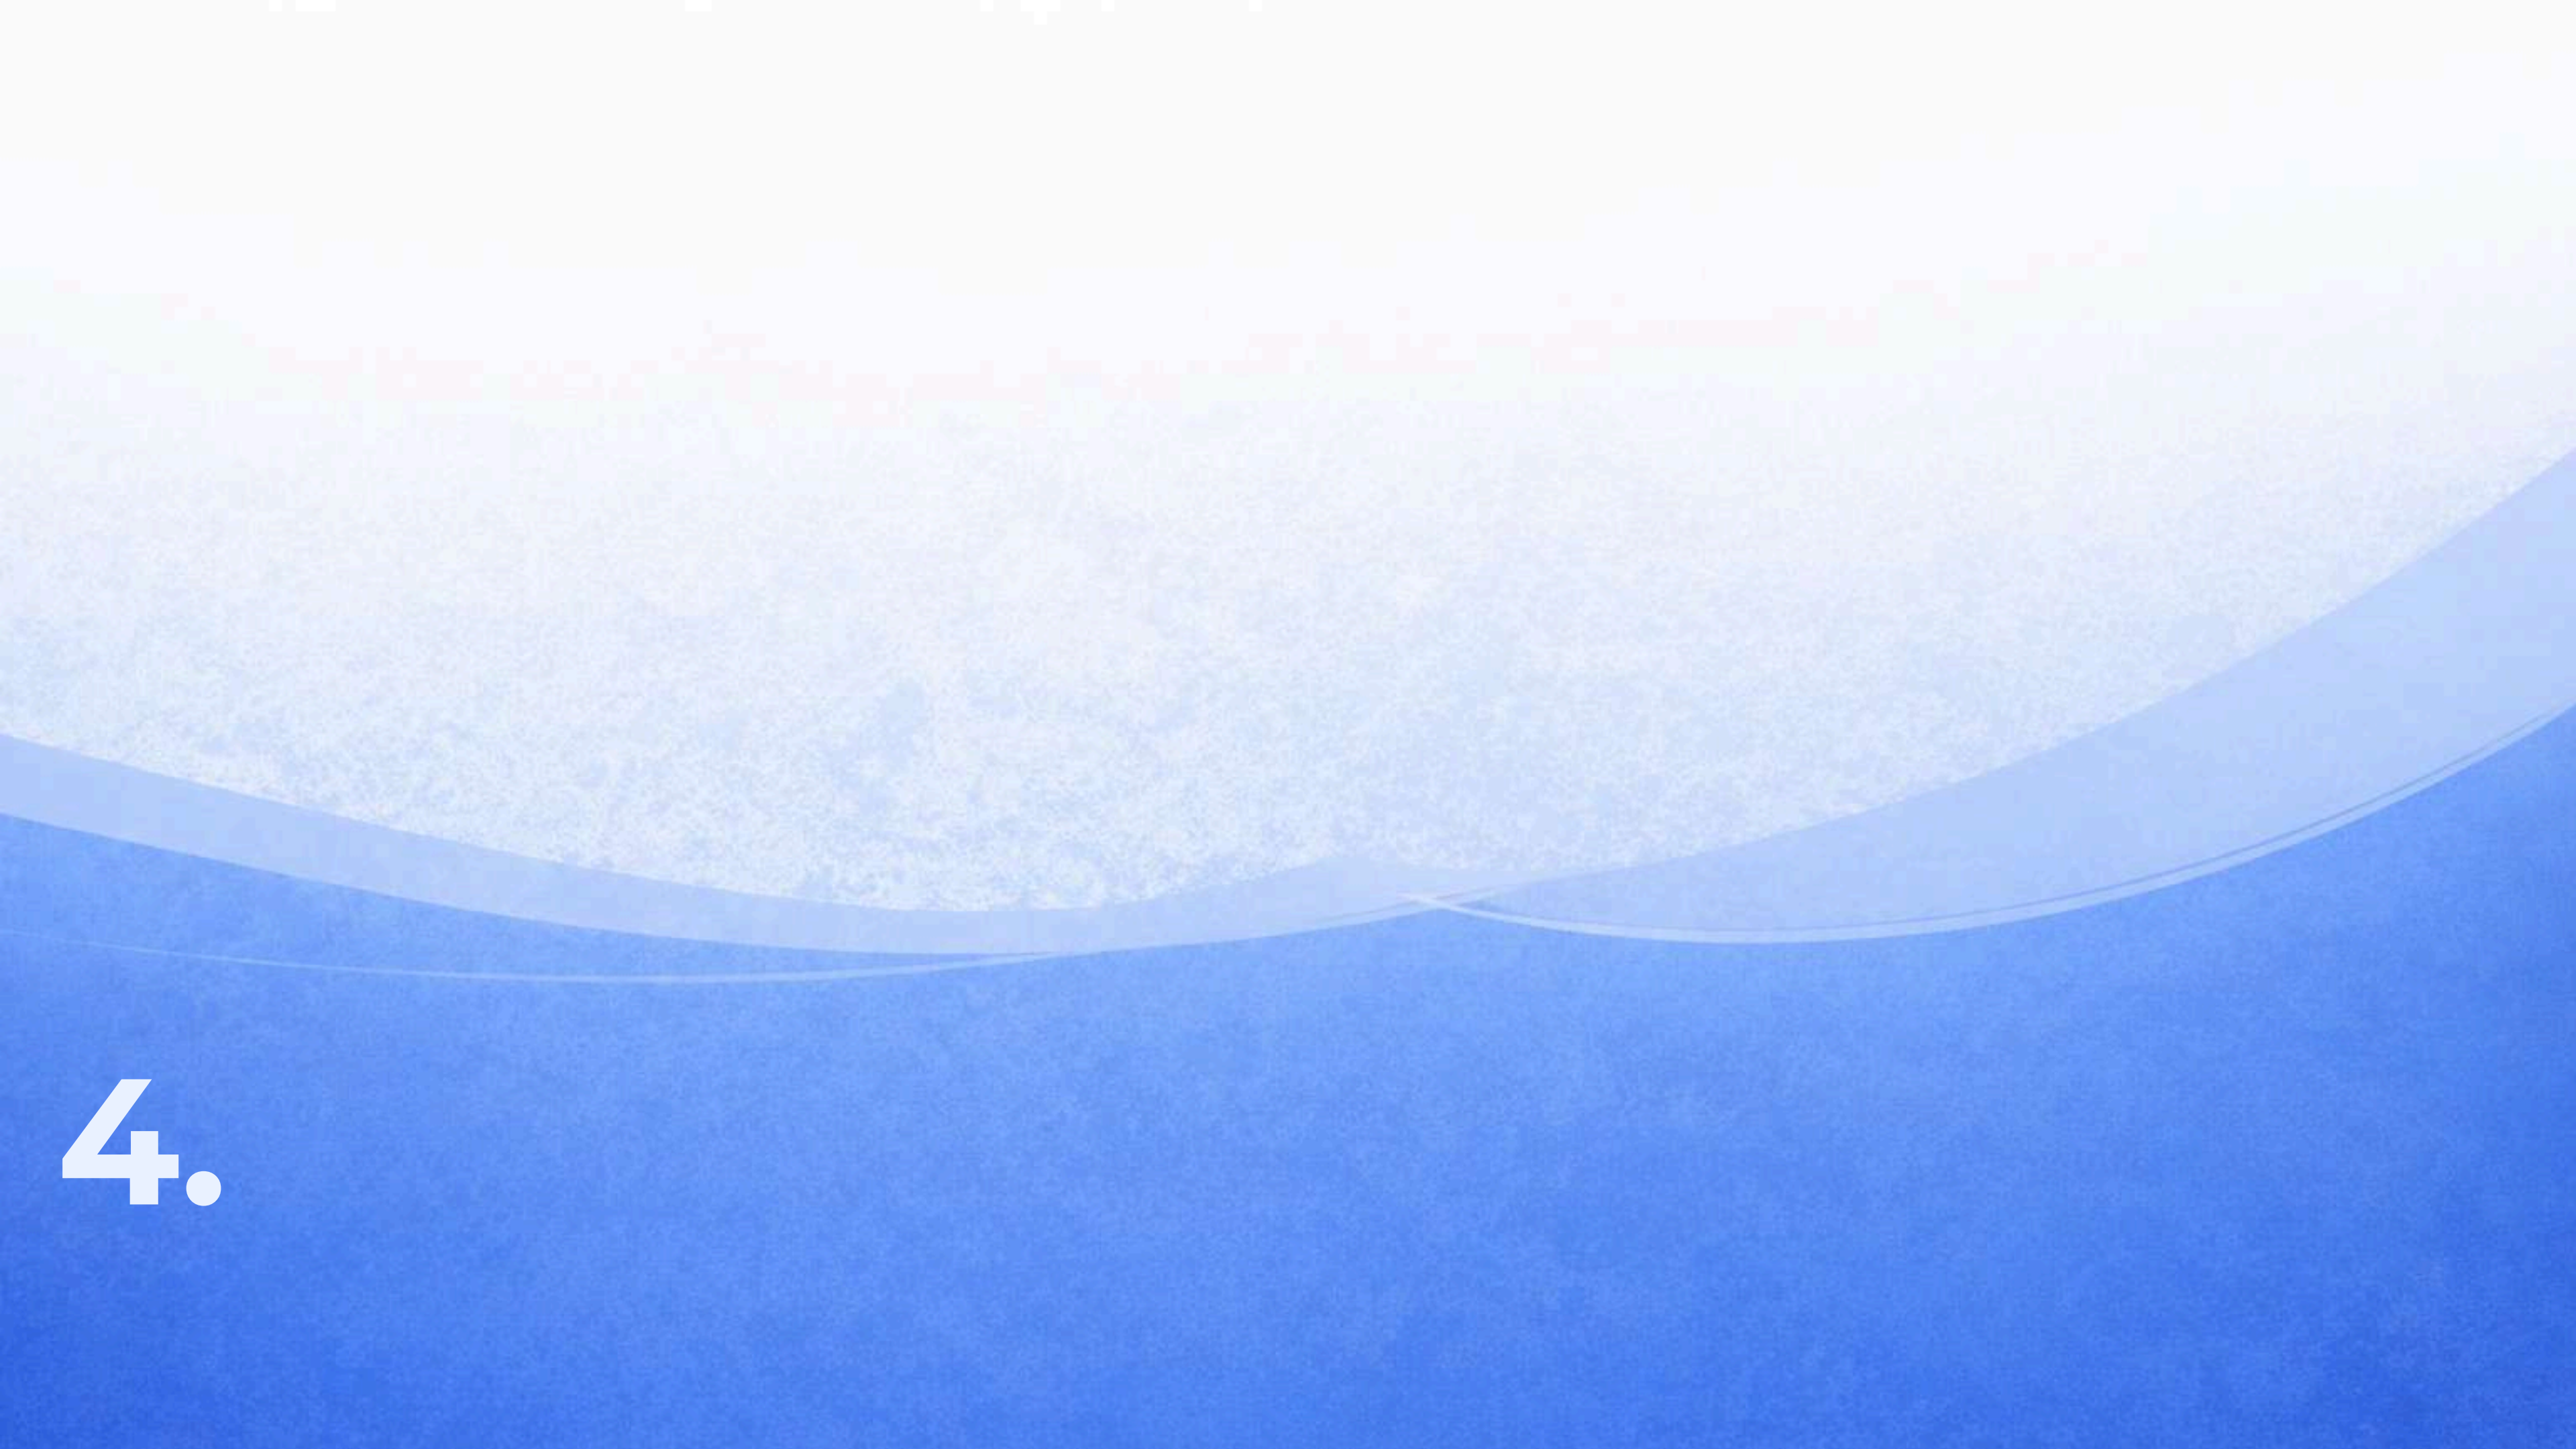

Give your bones the calcium they've been missing.

Visual- Cipcal tablet placed perfectly in the gap.

Concept note- The reel shows a penguin walking a long distance. As the journey continues, the camera slowly pans towards big mountains. Among the mountains, a Cipcal tablet appears, showing the strength that supports every step.

***Copy-
Long journeys need stronger bones.
Give your body the calcium it needs.***

4.

Concept Note- Capturing the unseen effort behind weekends and linking it to the need for stronger calcium support.

F1- Mom’s Weekend Duties

F2- Make Breakfast

F3- Deep Cleaning

F4-Watering Plants

F5-Laundry

F6- When weekends demand extra from you, your bones need extra efficiency too.

F7- Support your calcium needs with Cipcal.

Stay strong from within, even on extra-busy weekends.

Concept Note- Capturing the effort behind

F1- Work Mode

F2- Commute rush

F3- Nurse on duty

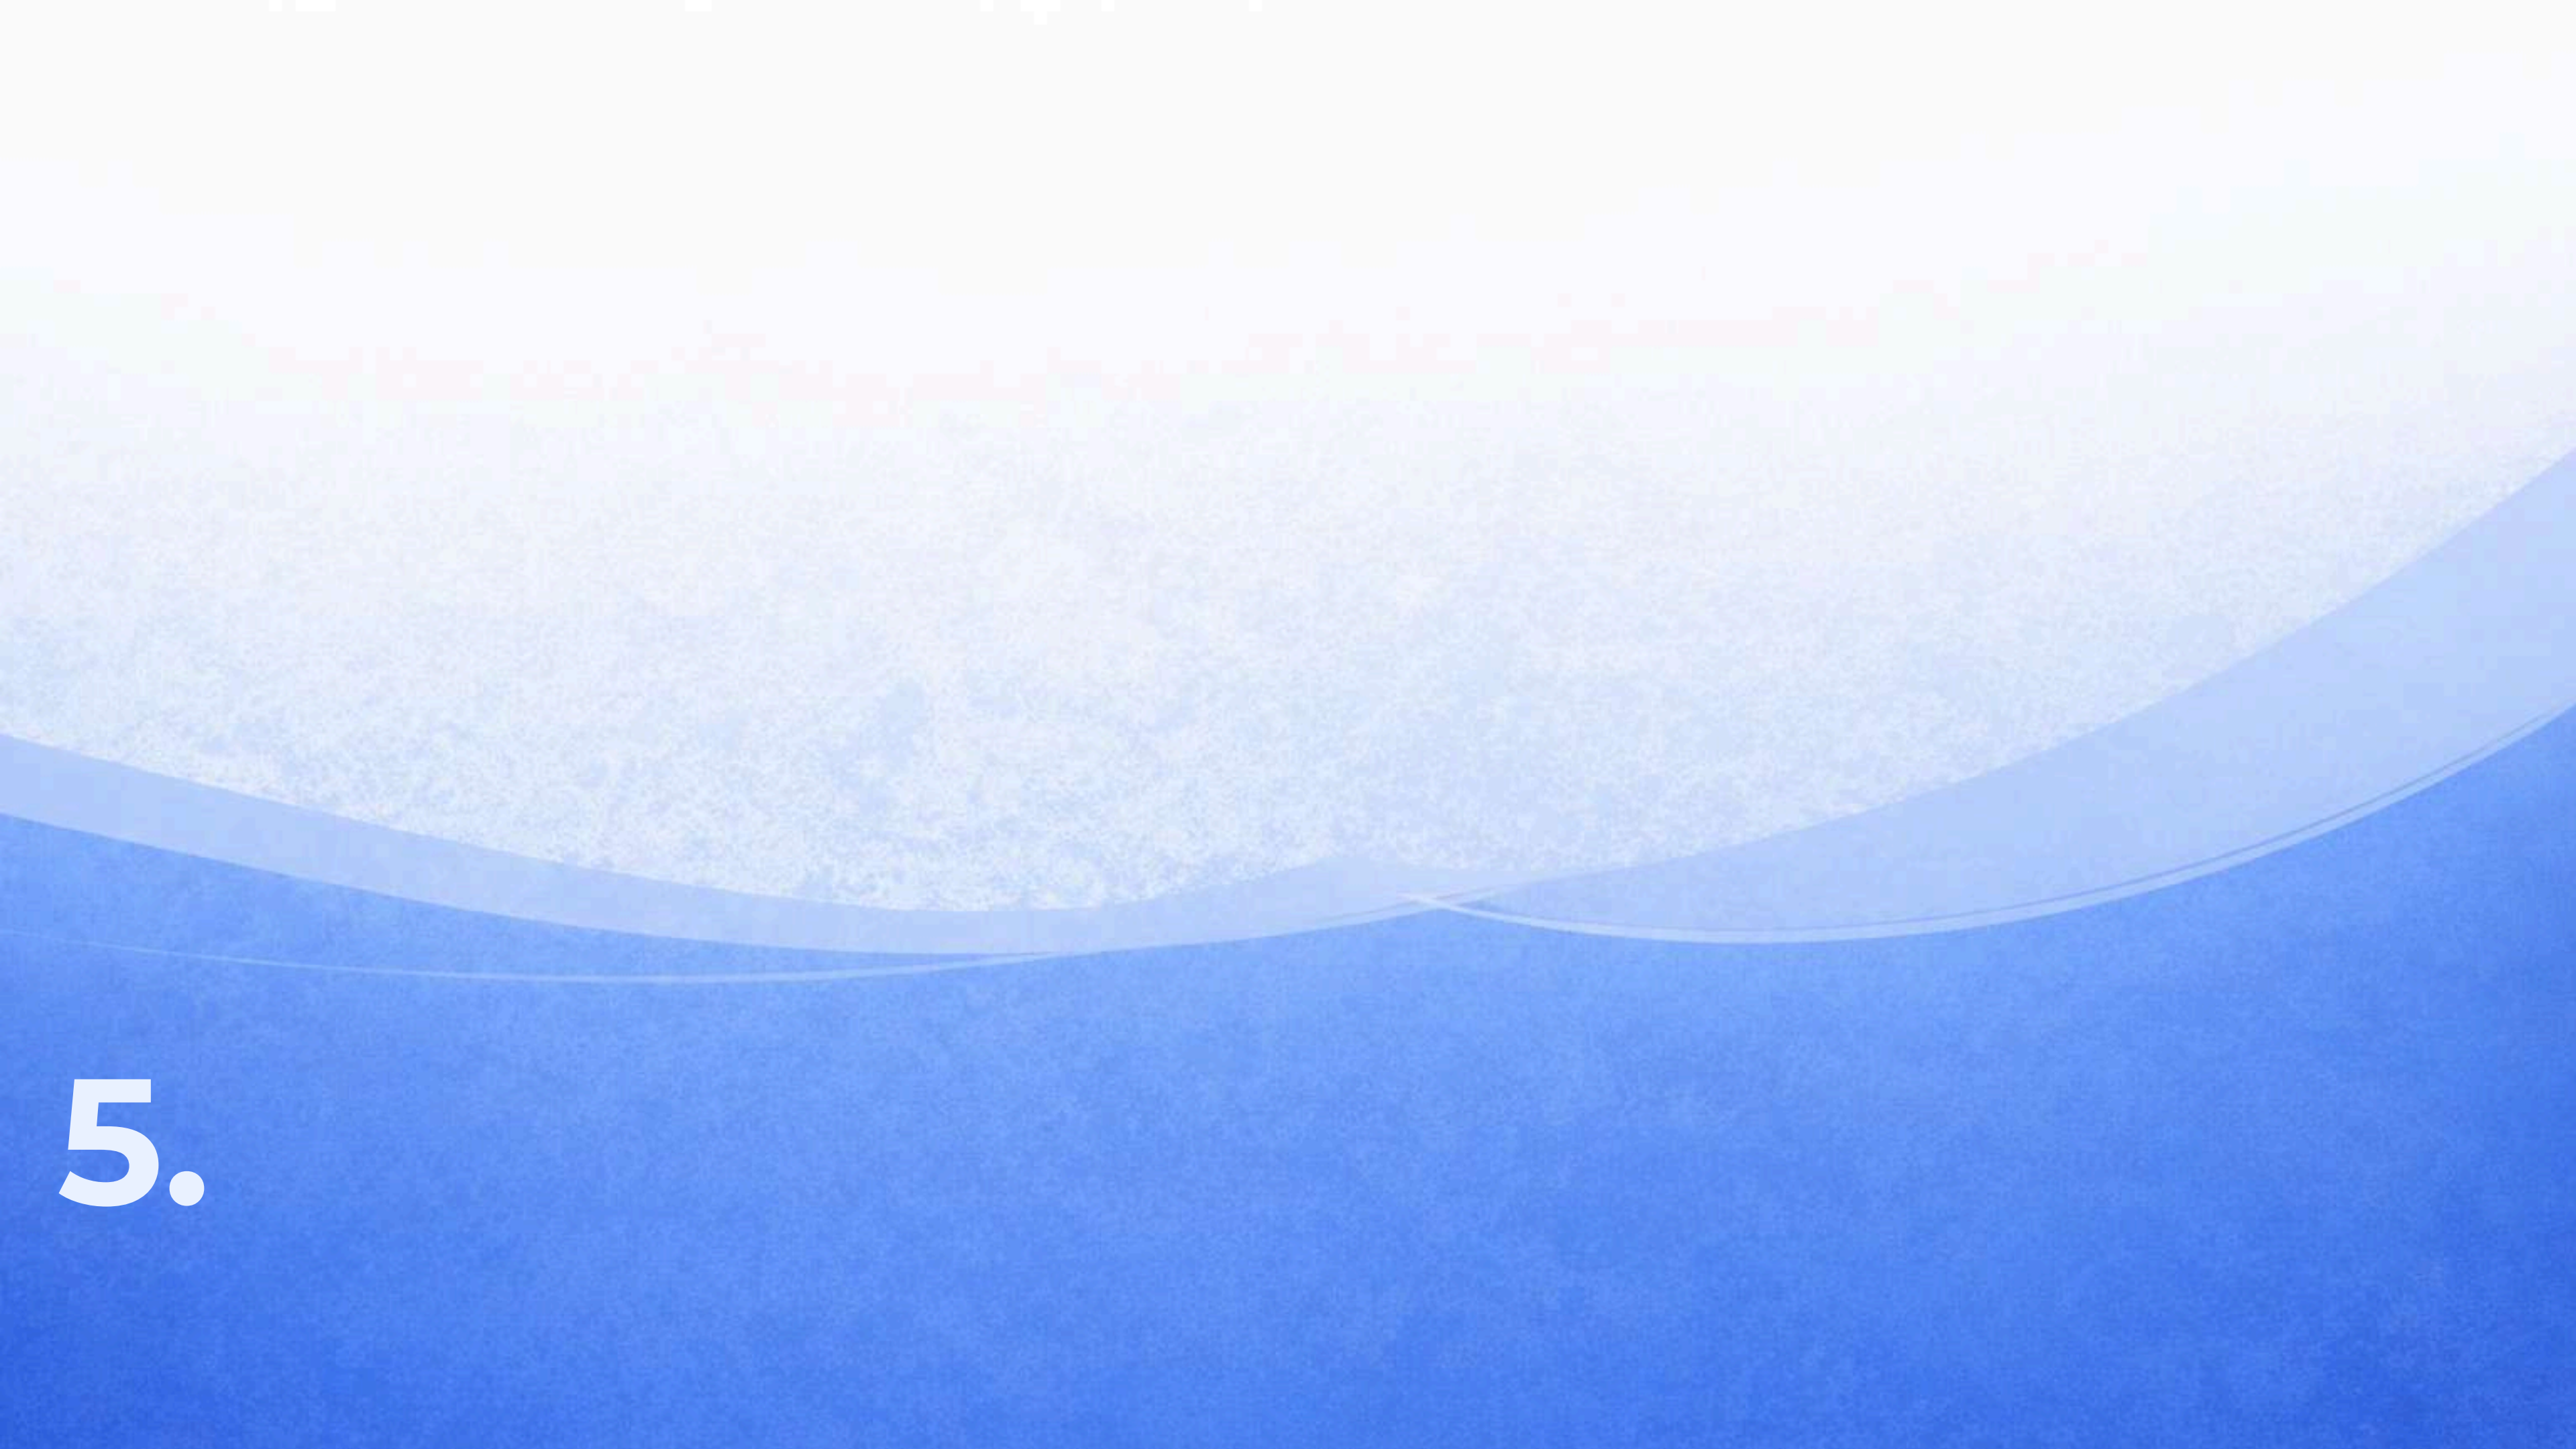

F4- Ward rounds

F5- Giving Injections

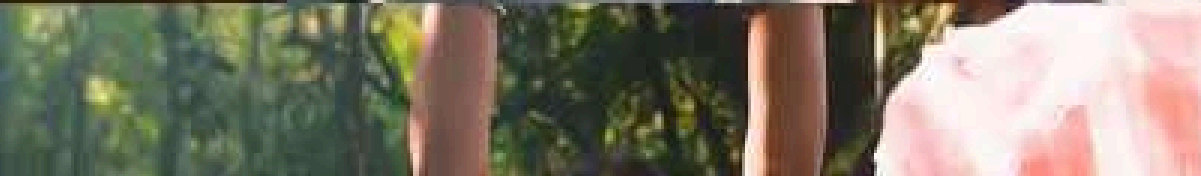

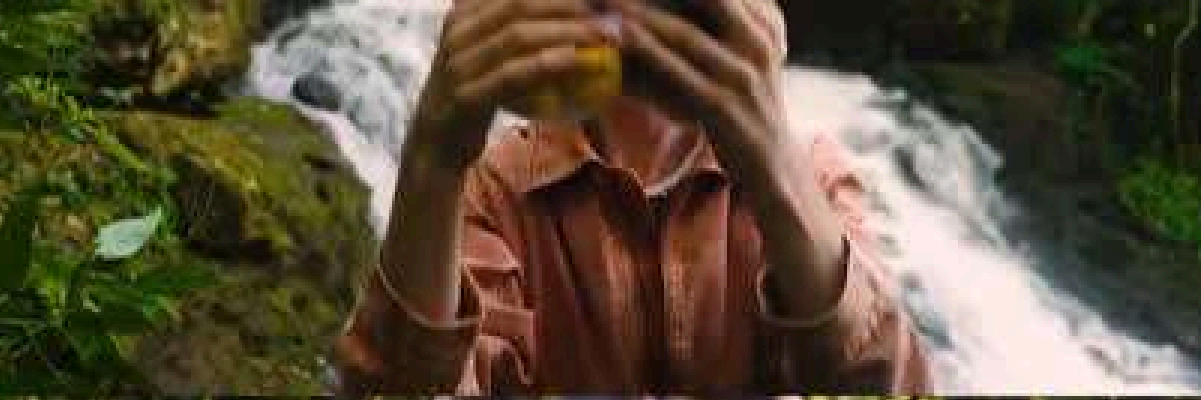

F6- When your shift doesn't slow down, your strength shouldn't either.

F7- Support your calcium needs with Cipcal. Stay strong from within, through every busy day.

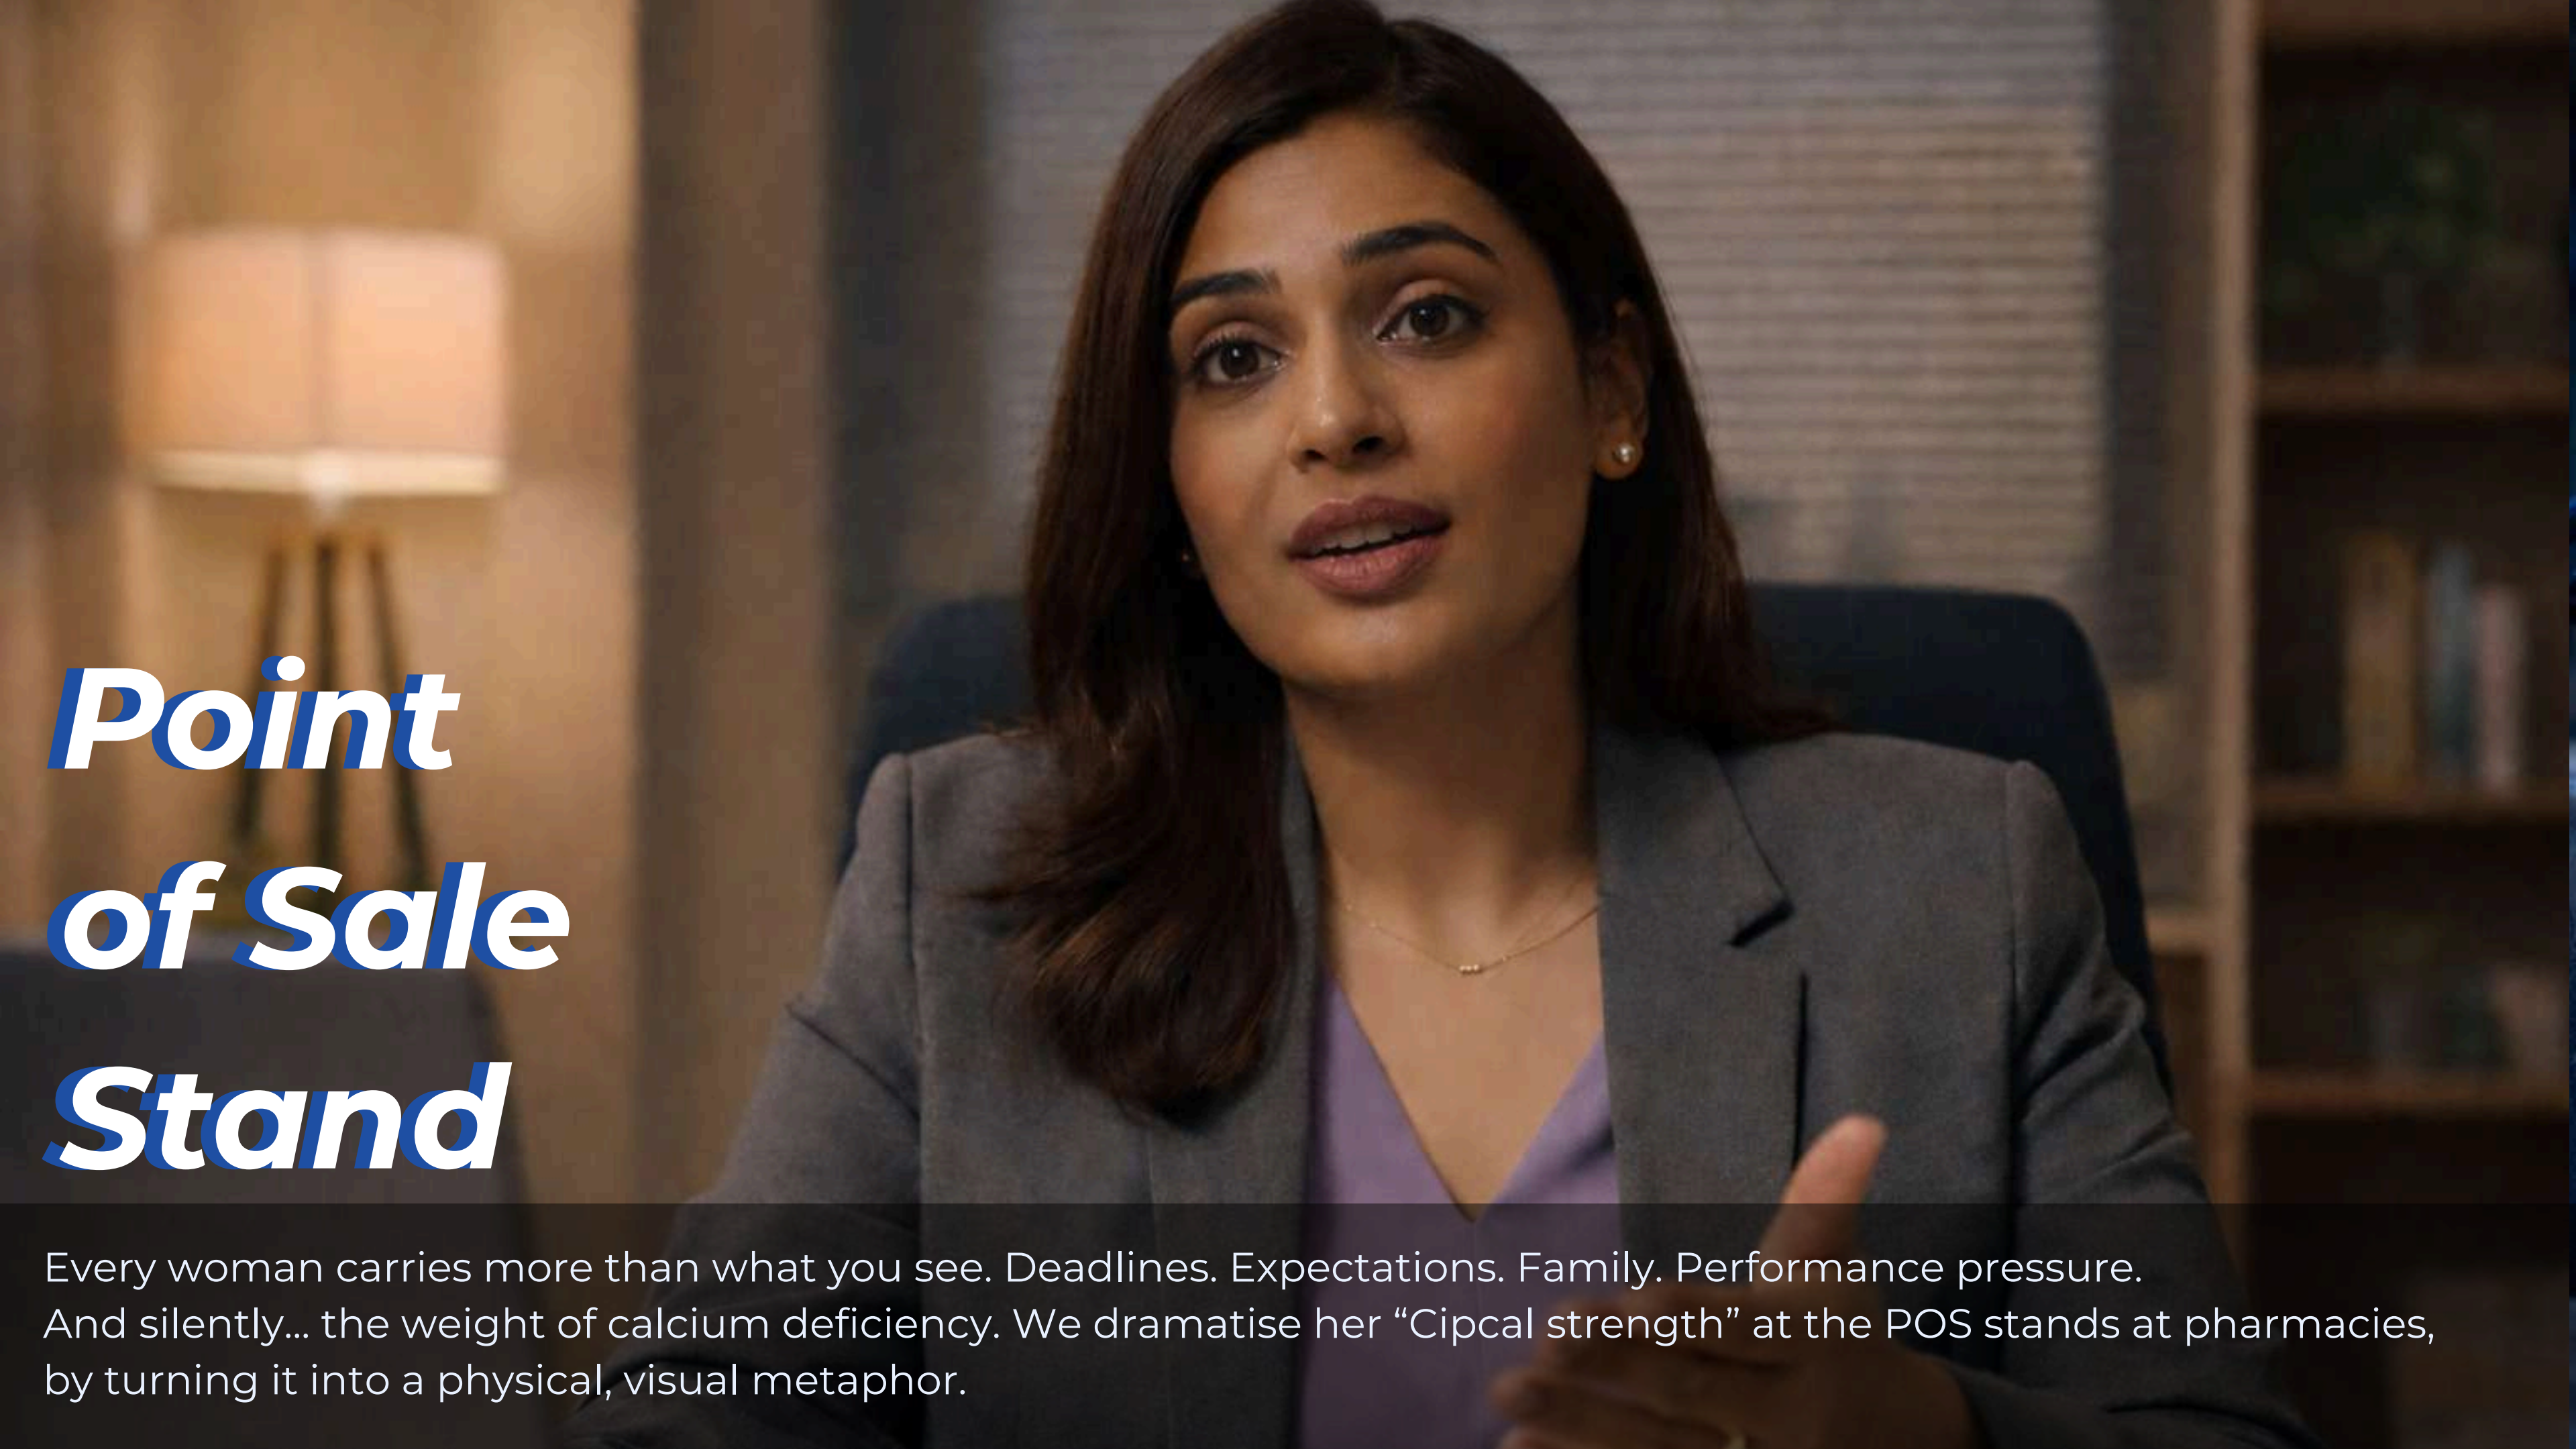

5.

Concept Note- A Cipcal tablet passes from one woman to another, across ages, roles, cities and moments, symbolising how strength travels through every phase of a woman's life. The video celebrates working women in various fields and shows one constant support that connects them all.

***Copy-
Strength that moves with every woman.***

Point of Sale Stand

Every woman carries more than what you see. Deadlines. Expectations. Family. Performance pressure. And silently... the weight of calcium deficiency. We dramatise her “Cipcal strength” at the POS stands at pharmacies, by turning it into a physical, visual metaphor.

Leaflets and posters

We see women flexing their strength with the same visual metaphor across leaflets and posters as well, at first it seems like the woman is just carrying one women on her shoulders, but in reality her inner strength has improved manifold with Cipcal.

Overhead Danglers

From the ceiling, we see women-shaped cutouts appearing like they are doing a pull-up from a bar, emphasizing on their inner strength and how they have bid good bye to fatigue, with Cipcal.
